Dear Residents and Families,

Welcome to Intercare!

Our team of qualified care and support service staff is ready to assist you in any way that will ensure your stay with us is both comfortable and respectful. Each Intercare facility offers a similar core of services and amenities; however, there will be some variance depending on the needs and desires of the resident. Our dedicated staff will make every effort to assist you in getting settled and exploring the numerous opportunities that are available.

You will undoubtedly have many questions. Not to worry! In a relatively short period of time you will learn about Intercare and how our commitment to quality services will immediately begin to have a positive impact on your quality of life. To ensure that any questions or concerns you may have are responded to in a timely manner, we have adopted an “open door policy” and encourage you to contact the Staff Nurse, Unit Manager, Clinical Team Leader, Residential Services Team Leader or the Facility Administrator, all of whom may be of assistance to you.

At Intercare, your feedback is important to us. We have a simple communications process utilizing a “Feedback Form” that allows you to easily share in writing a concern, compliment or suggestion with us. Simply fill out and deposit a completed form in the account box located near the front desk (or near the Facility Administrator’s office) or hand it directly to the receptionist. Feedback Forms are also available and can be completed online at Intercare’s website. We promise that your comments will be directed to the appropriate team member and follow up will be completed with you in a timely manner. We have found this process helpful both in resolving issues quickly and in developing new or expanded programs. Finally, it is a great way to let us know how effective we are in providing for your care and support.

We would like to extend a warm welcome to you and thank you for choosing Intercare as your new home.

Bert Everett,

President

Privacy & Confidentiality

Residents have the right to have their privacy and confidentiality protected. Intercare will ensure that residents' personal and health information provided to Intercare remains private and confidential pursuant to Alberta's *Health Information Act (HIA)*.

Accommodation Charges

Accommodate charges for all Long Term Care (LTC) facilities are set and adjusted by the **Government of Alberta**. Accommodation rates are standardized throughout the province of Alberta, including the Alberta Health Services/Calgary Zone.

Until further notice, daily accommodation rates at the Care Centre are as follows:

Private Room A	\$68.00
Private Room B*	\$63.45
Shared Room	\$58.85

* Private room with shared bath

Resident Transfers from Semi to Private Rooms

- ♥ Intercare maintains an internal waiting list for residents wanting to relocate from a shared to a private accommodation.
- ♥ Due to the number of specialized care units within Intercare's system and varying resident acuities, please note that priority for resident transfers to a private accommodation is based upon a resident's ongoing care needs, as opposed to the time a resident has spent on the internal waiting list. Intercare does, however, endeavor to accommodate each request for a private room as quickly as possible.

Additional Charges

While the above noted accommodation rate covers the majority of costs related to your dietary, housekeeping, linen and maintenance needs, the following additional costs may be incurred during your stay:

- ♥ **Resident Identification:** To complete our admission process, Intercare requires an appropriate photograph of the resident for identification purposes, the set up of basic resident information on to our addressograph and an identification wrist bracelet for the resident. The non-refundable associated cost for the resident identification process is \$41.75 + GST, due upon admission. If the resident loses or damages the identification wrist bracelet a \$15.00 replacement fee will be charged to the resident. Resident identification bracelets are used for resident safety and identification purposes. For example, the identification bracelets provide an important alternate identification source, particularly for medication management safety purposes, if residents are unable to 'self-identify' themselves.
- ♥ **Labelling Resident Clothing:** To help us ensure that clothing items are not lost or misplaced, all resident clothing is labeled as part of the admission process. Upon admission, the resident's unlabeled clothing should be given to a staff member on the resident's Unit as soon as possible to ensure the resident's items of clothing can be labeled by Intercare for identification purposes. The non-refundable associated cost for the labelling service and one hundred (100) laundry labels is \$36.50 + GST, due upon admission.
- ♥ **Personal Laundry:** Families/loved ones who prefer to provide personal laundry services for residents are encouraged to do so. Families/loved ones who prefer to have personal laundry services for residents provided by the Care Centre will be charged a cost of \$51.75 + GST per month.
- ♥ **Foot Care Nurse Services:** Foot care nurse services are available to residents at the Care Centre by appointment only. Residents who access the on-site foot care nurse services will be charged a fee for such service and must first complete an "On-Site Foot Care Services Billing Consent Form".
- ♥ **Cable Television:** Cable Television in resident rooms must be **Shaw Cable only**. The cost for cable television services for residents wishing to utilize this service is \$32.00 + GST per month.

Digital cable boxes and remote controls are the property Intercare. As such, a \$100.00 replacement fee will be charged to the resident or Responsible Party, to whom such equipment has been assigned, for any damage to, loss or removal of the assigned items from any resident room.

Infection Prevention and Control

Intercare has policies and processes in place to help reduce the risk of infectious diseases, such as influenza, from coming into and spreading through our Care Centres. These safeguards are referred to as “Infection Prevention and Control”.

Influenza vaccination programs for staff and residents, hand hygiene and respiratory etiquette are important steps that we follow to help reduce the risk of infections in our Care Centres.

Given that the best line of defense against infection is hand-washing, please remember to wash your hands often and thoroughly. Hand cleaning gel is available at the main entrance of each Care Centre.

Family members, friends and visitors can help us keep our residents safe.

Here's what you can do to help:

- ♥ Do not visit your family member or friend if you are sick or feel like you are getting sick
- ♥ Wash your hands before and after you leave the Care Centre
- ♥ Use alcohol hand gels in between hand washing
- ♥ Cough or sneeze into your sleeve to avoid spreading germs
- ♥ Don't bring small children to visit if they are ill or have been exposed to influenza at school or in the community
- ♥ Urge your family member or friend to tell a Nurse if he/she has any signs of influenza
- ♥ Urge your family member or friend to avoid close contact with others during the influenza season or outbreaks

Infection Prevention and Control (Continued)

The 'Four (4) Moments of Hand Hygiene'

Intercare follows the 'Four (4) Moments' of hand hygiene, as outlined by AHS, to reduce the risk of spreading potential sources of infection within our facilities.

The **Four (4) Moments** of hand hygiene are as follows:

- ♥ **Moment 1:** Before contact with a resident or resident's environment, includes but is not limited to: putting on personal protective equipment; entering a resident's room; and before providing resident care.
- ♥ **Moment 2:** Before a clean or aseptic procedure, includes but is not limited to: wound care; handling intravenous devices; handling food; or preparing medications.

- ♥ **Moment 4:** After contact with a resident or resident's environment, includes but is not limited to: removing personal protective equipment; leaving a resident's environment; and after handling resident care equipment.

Outbreak Management

In the case of an "outbreak" (i.e. numerous cases of a gastro-intestinal (GI) or respiratory illness), signage advising of the outbreak will be posted at the facility.

PLEASE NOTE: These types of infections can easily spread. To decrease risk to Residents, families, visitors and staff, activities at the facility may be cancelled and visiting may be limited or restricted during an outbreak.

Safety

Intercare is committed to promoting and maintaining a culture of safety for our residents, families, visitors / guests, staff and volunteers. It is the responsibility of all staff and volunteers to contribute to the health and safety of our work environment and the well-being of our residents.

Residents and family members also play a very important role in promoting safety. As such, Intercare encourages you to report any safety concerns that you may have while in our Care Centres to our staff or by completing and submitting a **Feedback Form** to us.

In Case of Emergency

There are various types of **emergencies** that may arise within our Care Centres. Our first priority in the face of an emergency is the safety and well being of our residents. Particular actions taken by staff will depend on the type of emergency.
