

## Southwood Care Centre Phase III Construction Project

With the recent completion of servery upgrades at the Southwood Care Centre, it is our pleasure to announce that we are now commencing a third (3<sup>rd</sup>) and final planned Phase III rejuvenation and building replacement construction project at the site.

The Phase III construction project will involve the rejuvenation (refurbishment) of the original one (1) story Parkland Annex Unit and the full replacement of the original one (1) story Evergreen Wing (built in 1964) with a new two (2) story building.

The Phase III construction project is anticipated to be completed on or about the end of November 2022.
